

# INTERACTIVE FLAT PANEL DISPLAYS

5 Series - 5651RK/ 5751RK/ 5861RK

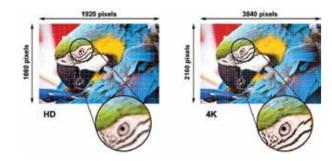

# ENHANCE EVERY INTERACTIVE EXPERIENCE WITH AN OPTOMA MULTI-TOUCH DISPLAY

### Optoma interactive flat panel displays

Boasting 4K UHD resolution and up to 20-point multitouch capabilities, Optoma interactive flat panel displays (IFPDs) bring lessons and idea sharing to life in both education and business settings.

Available in 65", 75" and 86" sizes and featuring antiglare / scratch resistant glass, low blue light filter (TUV certified low blue light content) and a wide viewing angle, they reduce eye strain while providing crisp and vivid visuals to every seat in the room.

### Easier on your eyes

Optoma interactive displays feature a low blue light filter – certified by independent world leaders in product testing, TÜV Rheinland. This certifies that Optoma IFPDs produce no hazardous UV light and emit minimal blue light (which can cause eyestrain and tiredness).

### Easy file management

With powerful functions and intuitive interface, Optoma File Manager allows users to manage files and folders. Users can also access cloud drives, browse, create, rename, copy, move and delete files.

### Intuitive whiteboard annotation

Creative sharing is easy with a ready-to-use whiteboard featuring built-in annotation tools that encourage collaboration.

#### Stay connected

In addition to wireless sharing, numerous connectivity options are available including 3x HDMI, 1x VGA, and for additional flexibility an OPS slot. It also features an HDMI output which is useful for connecting an external display.

# EXPERIENCE ADDED FEATURES WITH THE 5 SERIES PREMIUM INTERACTIVE DISPLAY RANGE

## Optoma quick draw pen

Be ready to start the lesson in seconds with the Optoma Quick-Draw Pen. Just take the pen from the holder and the whiteboard application will automatically be activated, saving you time and delivering a familiar feel of using a marker.

#### Realistic writing experience

The 5 Series comes with a double tipped pen to help you switch quickly from precise lines to broader sweeps. In addition, the 1mm air gap screen feature ensures this is one of the most realistic writing experiences yet.

## Slim bezel

The slim bezel design means that even when not in use, the 5 Series is an attractive centre piece. When in use, you have a stylish frame to share your chosen content, adding a touch of elegance to a highly functional device.

### Dual App mode

Dual App Mode allows you to view two apps, on your device, at the same time. If you're trying to copy and paste text from one app to another, or want to watch a video while you scan Office documents, you can do that easily without the need for an OPS.

# BUILT FOR THE BEST COLLABORATIVE EXPERIENCE

# Joan meeting widget

With the number of meetings increasing, office space has become the second-biggest expense for organisations. And when these are poorly planned or managed, the effects are reflected in poor office workforce satisfaction and lack of productivity.

Optoma has partnered with Joan, a leading meeting room software provider, to deliver a free of charge meeting room solution on Optoma IFPDs.

Quickly find and schedule meeting rooms, huddle spaces and workstations. Book meetings on the spot or through your existing desktop calendar and mobile phone.

### Connect a webcam

Optoma's range of Creative Touch interactive displays are perfectly suited to the ever changing educational and business needs.

You can connect practically any webcam giving you the ability to work together from remote locations. When combined with Optoma software, they provide the ultimate collaboration experience.

# SOCIAL DISTANCING MADE EASY - CONNECT ANYWHERE WITH TAPCAST

Wirelessly display and share content on a big screen without any additional hardware using the Optoma TapCast<sup>™</sup> app. You can easily mirror your screen or wirelessly cast documents, images or videos stored on your PC, tablet and smart phone at the touch of a button. Bringing your own device has never been easier.

### Multi to 1 feature

- Stream content from up to 4 devices without cables
- Only requires an App / Windows / Mac software
- The sending devices and the IFP have to be on the same network

Operating system	Available version
Windows	Windows 7/8/10
Мас	OSX 10.8 or later
iPhone	IOS 9.0 or later
Android	Android 5.0 or later
Chrome book	Chrome OS 65 or later

#### Simple content sharing

- Only TapCast pro required
- IFPD devices and sending device have to be connected
- Recent update main device can be a mirrored screen
  or extended
