

BE Free8

Premium true wireless Bluetooth in-ear headphones

- **Cable free | True wireless earphones**
- **Stable and reliable signal/connection | Bluetooth® and NFMI technology**
- **Superior sound quality with deep explosive bass | Enhanced with AAC and aptX**
- **Non-stop listening on the go | 4 hour battery life**

The BE Free8 true wireless earbuds have no cables or neckband for unrestricted movement at any time. Designed for clear, uninterrupted audio, the protective carry case doubles up as a charger - allowing users to stay connected for non-stop listening on the go. Equipped with advanced audio coding and AAC, aptX LL and NFMI technology, they deliver crystal clear stereo sound and stable wireless connection with no lag.
